1	Bird house From Waste	03
2	Ice-Cream Stick Art	03
3	Waste News Paper Art	03
4	Art From Waste C.D.	03
5	Art From Plastic Bottle Waste	03
6	Making Decorative thing Through Plastic Spoon	03

1-Making Bird Houses With Unused Material

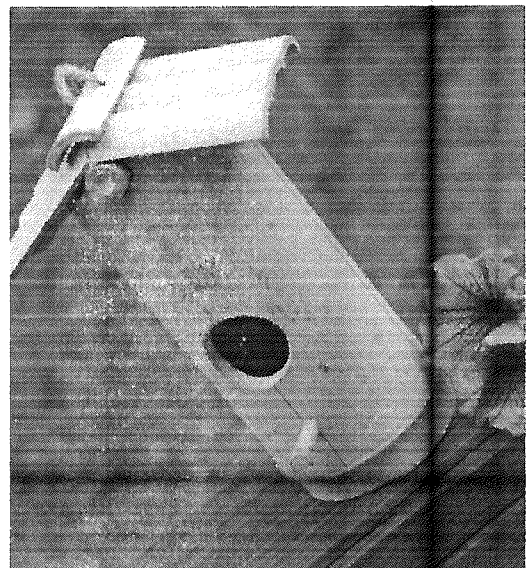

Bird House made of tiny sticks picked from the backyard

A realistic and natural looking birdhouse like this is sure to attract the winged beauties. All you need is in your backyard. Pick up rot free twigs ,cut them up evenly and glue them together. You are sure to make friends for life with these natural and eco-friendly homes for your new friends!

Bird House Made with a piece of Bamboo

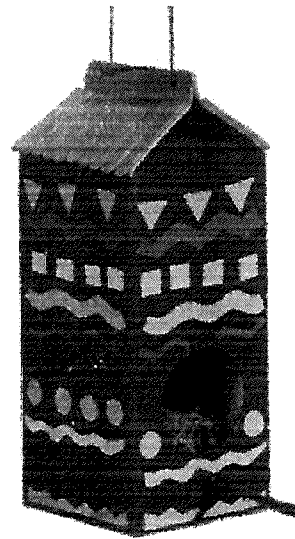

An attractive and sturdy design that entices the little colorful residents in, this single unit bamboo birdhouse is easy to make and keep. Because of its

tree like appearance, it will blend in and keep the birds feeling at home and also uses minimal supplies.

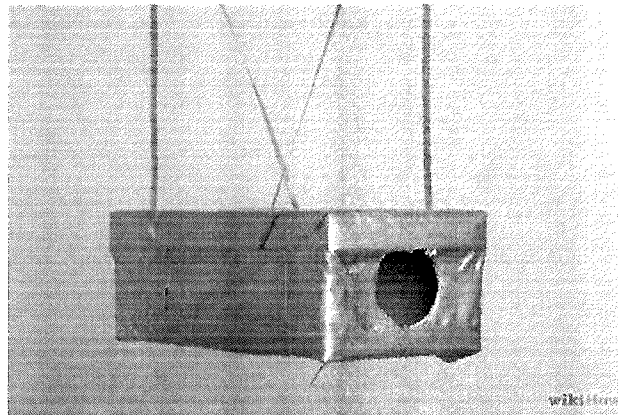

Milk Carton converted into a birdhouse

These super cute items are ideal for unleashing your creative urges, so do make sure to try your hand out at one of these. Take care that the paints you use are not harmful to the birds. If you can't be bothered with too much decorating, simply paint it a single color. Either way, the birds will only thank you!

Shoe box converted into a bird house

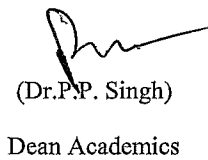

By reusing cardboard you not only create a house for your winged friends but also help reuse and recycle stuff that would otherwise end up polluting our rivers or go into landfills. Just use one of the size you prefer and spruce it up with whatever your heart desires, cut a hole out and hang it up!Voila! Your tree house is ready!

Waste Coconut shell made into a bird house

Though drilling a hole into it might test your skills, a lasting, sturdy and safe option would be using a coconut shell as a birdhouse. It is suitable for small creatures and will blend in with the surroundings. Just hollow out a hole in the center or tie up two halves with string and you're good to go.

Dry Gourd can be used as a bird house

Gods little creatures won't care if you express your creativity or leave them as they are; these gourd houses are ridiculously easy to make. Just clean and dry them out and hang them up after creating a doorway and you're on your way to making friends for life!

Bird house made using ice-cream sticks

Don't miss the chance to be an architect and design a gorgeous and colorful house any way you want. This type of house can stretch your imagination to its extreme. Colored, painted, decorated or plain, these birdhouses are attractive and enticing pieces. You can even have a ledge or balcony for the birdies to relax.

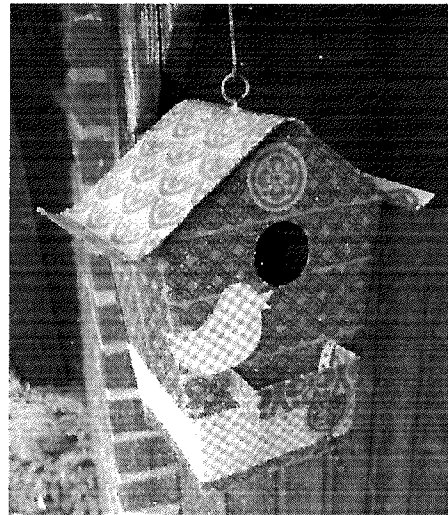

Old Cow boy boots converted into a bird house

If you have a little bit of country spirit in you and have a flair for going crazy with your crafts ideas, then this is sure to be a thrilling endeavor for you to indulge in. Turning an old worn out boot into a swanky new birdhouse is a novel way to set up a swag looking house for them birds, y'all!

Bird box made using colorful packing tape

Adding pattern and textures simply by sticking on, packing tapes are phenomenal ideas if you're an artist dying to express yourself. Painting and sticking on cardboard can work magic. You can even individualize it by naming your frequent visitors and putting a nameplate up to establish a more personal bond with them!

2- Ice-Cream Stick Art

1-Use ice cream sticks to make bookmarks

In the holidays, some children like to read books. They want interesting bookmarks to read these interesting books and in summer vacations we eat a lot of ice cream from which we can make beautiful bookmarks

West things you need:

- Ice Cream Sticks
- Glue
- googly eyes
- felt pens

What to do with these things:

1. Wash and dry the ice cream sticks.
2. Leave the top 1/4th of the stick blank and trace
3. Wrap a ribbon in the second part.
4. You can use different colored pens to fill the ice cream sticks.
5. The top part is the head and the googly eyes on them
Paste and make a mouth.
6. Make the face of any character you like can.

This way your beautiful bookmark is ready!!

2-Make fighter plane

You can use ice cream sticks to make beautiful fighter planes.

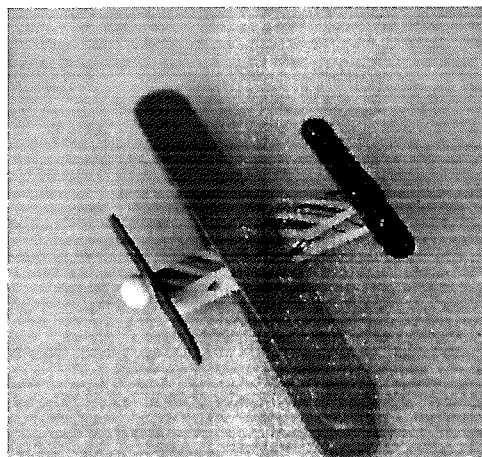

West things you need:

- 4 ice cream sticks
- Wooden clothespin
- Bead
- Glue
- Scissor

What to do with these things:

1. Wash and dry the ice cream sticks
 2. Paint the ice cream stick and wooden clothespin of your choice
 3. Cut the ice cream into 3 pieces and connect the 2 end pieces in a straight line with glue.
 4. Paint the bead and keep it aside to dry
- Give.
5. Attach 2 ice cream sticks with glue to a wooden clothespin at an equal distance.
 6. Now go to the other side of the pin and do the same method as before
- Repeat.
7. Use glue to stick the bead. 8. Finally glued the propeller to the front of the pin
- Give.

Your plane is made of waste material.

3-PHOTO Frame

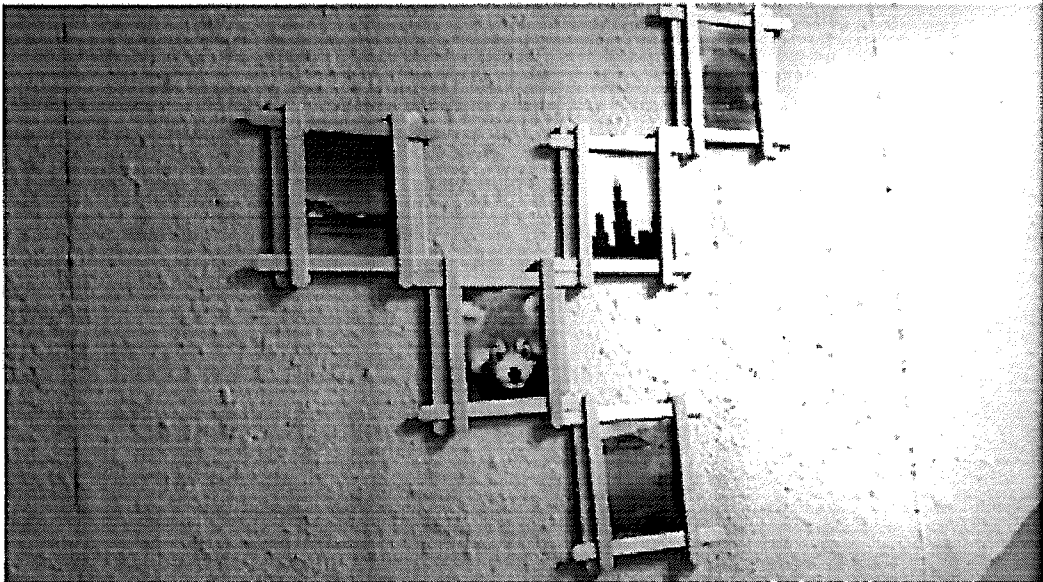

West things you need:

- Popsicle Stick
- Scissor
- Colour
- white paper

What to do with these things:

1. Paint the Popsicle sticks on both sides.
2. Paste them in the shape of a square.
3. Cut the white paper bigger than the size. Paste white paper with popsicle sixes.

Your frame is ready.

3-Best Out of Waste From Newspaper Easy.

There are lots of importance of newspaper. It carries lots of news related to different categories. News paper can be of many types. Some are national some international and some local. It can be published daily where as some can be published weekly,monthly and yearly. The only problem is once the information is taken, This paper will be garbage.

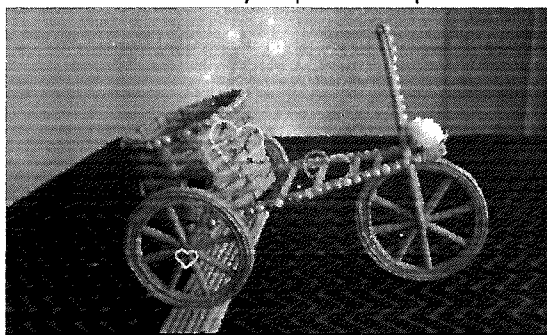

In the morning newspaper has got main priority and so importance. But at the evening newspaper is just another paper. After months and year this news paper is just waste. It is our duty to **recycle newspaper**.

There are lots of ways to recycle news paper waste. let us learn some best out of waste from newspaper craft ideas.

1. Newspaper cycle Pen Stand :

Some of the materials needed to make newspaper cycle pen stand are old newspaper, fevicol, glue, scissor, clamps, Cardboard's, etc.

- First of all make many small rolls of newspaper as of stick shape. This is our raw material for whole newspaper craft project.
- Initially make wheels. For making wheels bend the news paper in circular form. glue the rolls inside the circumference using clamps and leave it to dry. Repeat same process and make three wheels.
- As wheels are ready make the connector for wheels. For this just attach four rolls of same length.
- Now its time to make storage part where we put our pen. For this glue the rolls on circular cardboard and start to web the paper stick as in video. Continue until the basket is completed.
- Make the handle using the paper stick and connect to front wheel we made initially.
- Now its time to connect all parts . Using paper rolls connect the front handle and two wheels. Glue the basket over two wheels. If you like to color the pen stand you can color it as your desire. Finally our News paper is Ready for use

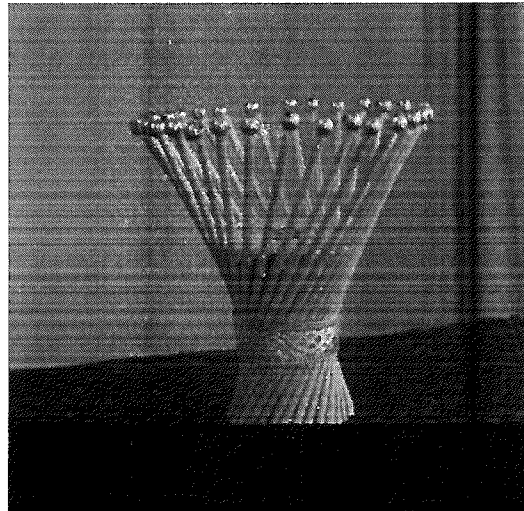

2. Newspaper flower vase :

Second newspaper recycle ideas is a flower vase form waste newspapers. We can make a cute flower vase from old newspapers. Some of the materials needed to making newspaper flower vase are some old newspapers, toilet rolls, rubber, fevicol, glue, scissor and clamps.

First of all make many news paper rolls like thin stick. This can be made using webbing needle, For this first of all take rectangular newspapers and roll the old newspapers on needle and the glue at the end.

- First of all take all newspaper rolls and tie it over toilet rolls using rubber.
- Take a circular cardboard. Its radius must be much bigger than that of toilet rolls. Fix this cardboard inside this toilet rolls. This gives a vase shape we needed.
- Now take one paper roll and cover the vase using fevicol. This helps to give the strong frame.
- For better design we can add the color as our wish and glue some beads at the top of paper roll. And glue the color ribbon at middle of vase.

Finally our newspaper vase from best out of waste is ready to use.

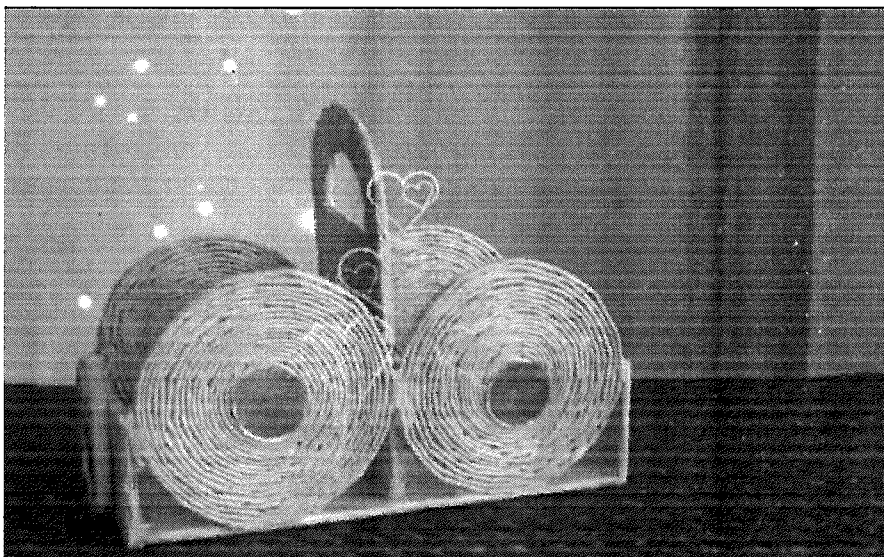

3. Newspaper Salt Container Tray :

Third **best out of waste from newspaper** we have selected is a easy salt container tray.

Newspaper salt container tray is easy project. Some of the materials needed are cardboard, old newspaper, glue (fevicol),etc.

- First of all attach two newspaper roll and press it so that it acts as rope. now roll the news paper in spiral and make circular shape. For this as the newspaper roll is finished add next one.
- Repeat this process and make four equal radius circles and two circles which is little bit smaller then earlier one.
- Take two cardboard's having length 10 cm and breadth 5cm . and next cardboard having dimension of 15*10cm. These cardboard's are base and side walls.
- Take a cardboard having length 15cm and breadth of 10cm and made this as handle.
- Now its time to glue all the parts. First of all take the base cardboard and glue the smaller two cardboard's on either ends. The larger circles are then glued on the front side and back side. Finally handle is glued at middle.

For better design we can add any color as our wish. Now it's time to use this news paper craft.

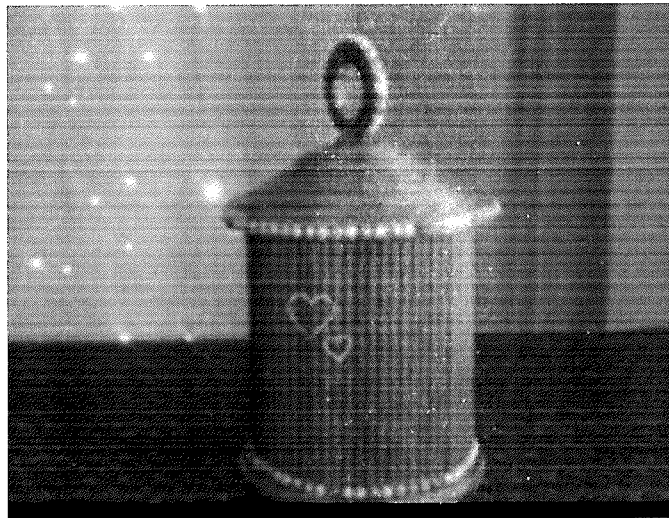

4. Newspaper Jar :

Our fourth best out of waste from newspaper is news paper jar. We can make awesome design of jar recycling old newspapers.

New paper jar is easy news paper craft. Let us make this jar. First of all make the materials ready which are as usual some old news papers, glue, color, scissor, some decorative beads, etc. the fundamental of this project is making news paper rolls.

- First of all attach two newspaper rolls and press it to make as rope . Now start to roll is in spiral cylinder. As the newspaper is finished add next and so on. Finally make two equal sized circles and also make small one .
- Slightly press one one circle and make its shape as cone.
- Take a rectangular paper and glue newspaper rolls on it so that it will form cylinder when we join the ends.
- Glue the smaller circle on the larger one . Now there is a guideline for the cylinder. Glue it using fevicol.

Finally our jar is ready to use . This **news paper craft** can be used for decorative purpose.

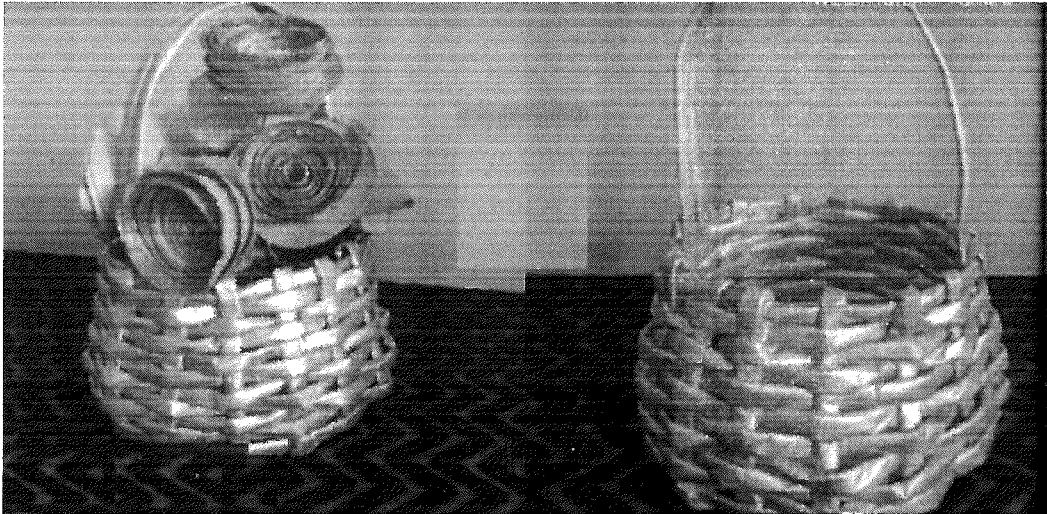

5. Newspaper Basket :

Newspaper Basket is our fifth **best out of waste from newspaper easy** . We can make this news paper basket easily at home.

Materials needed to make basket are, Old newspapers, glue (fevicol), color, scissor, etc.

- First of all make some newspaper tubes. For this roll the rectangular newspaper on needle and glue it at the end.
- Take two circular cardboard. The radius can be differ as your requirement. If its large the basket will be bigger and if the cardboard radius is small the basket will be smaller.
- Glue the tubes on the cardboard as wheel. Now glue next cardboard over it. It some what like seems as sun.
- Now start to wave the tubes and as the tube is finished add another one until the basket is completed.
- As the basket is completed now it's time to add handle. For handle take two tubes and glue it to basket from inside.

Finally color can be added as your desire. By this process we can make great basket that can be used to carry flowers. Can also be used for decorating our room.

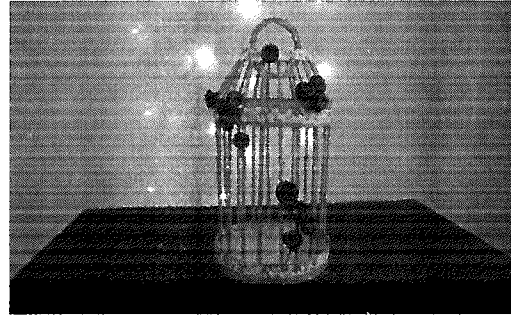

6. Newspaper Bird Cage :

We can make easy best out of waste from newspaper a newspaper bird cage. This news paper bird cage can be easily made. Let us make this bird cage.

Some of the materials needed to this bird cage are thermocol, old newspapers, glues, colorful ribbon, scissor, color papers, etc.

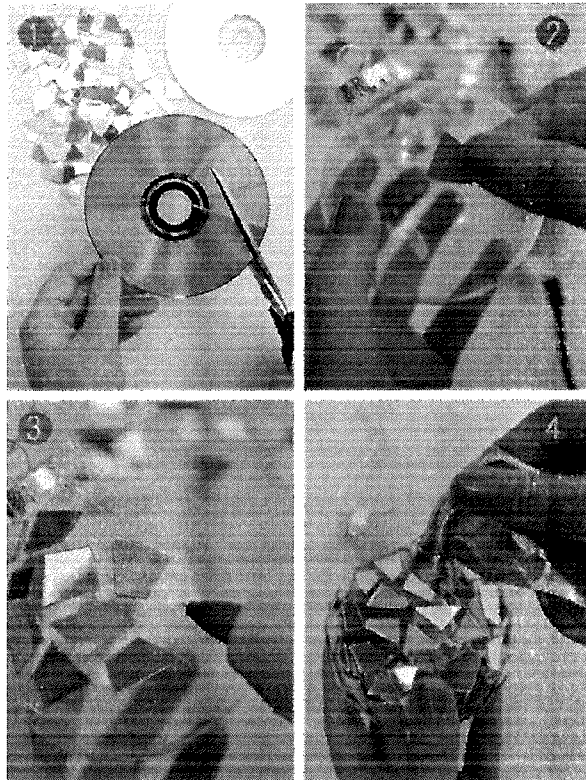

- First of all we must make the basic material for bird cage. For this Newspaper bird cage we must make newspaper tubes.
- Take a thermocol in circular shape. Its radius can be as of your requirement.
- Glue the paper tube on the circular thermocol as of bird cage. Maintaining gap about one centimeter.
- Take a ribbon and glue it on this bird cage. This makes our bird cage strong.
- On the top also make same size ribbon on the top. Ribbon of smaller size is glued at the top which makes the perfectly shape of cage.
- For the top handle you can use two tubes and bend it to circular shape. Now Glue it at the top.

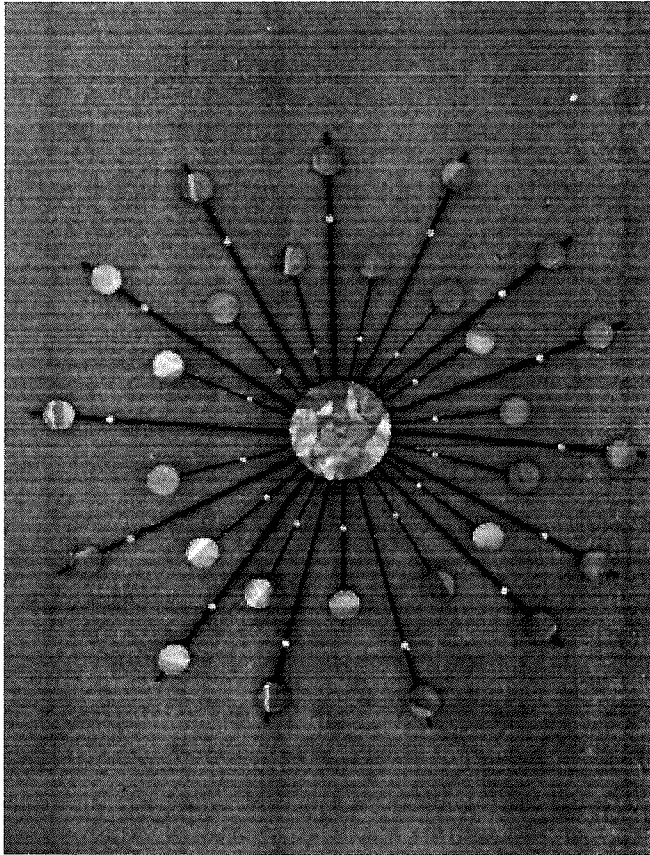

Finally our bird cage is ready to use. You can add color as your desire
