

## Event Report : Sustainability Innovation Workshop

**Date:** November 20, 2022

**Location:** J S University, Innovation Hub

### Event Overview:

A Sustainability Innovation Workshop was organized as part of the collaboration with Blue Planet. The workshop aimed to provide students and faculty with knowledge and tools for developing innovative solutions to environmental challenges.

### Highlights:

- **Introduction:** The workshop was introduced by Dr Gaurav Yadav, Director General at J S University, who welcomed Blue Planet representatives and outlined the workshop's objectives.
- **Training Sessions:** Experts from Blue Planet conducted sessions on sustainable technologies, eco-friendly materials, and innovative solutions for environmental issues. The sessions included practical demonstrations and interactive discussions.
- **Hands-On Activities:** Participants engaged in hands-on activities, including designing prototypes and brainstorming ideas for sustainability projects.
- **Q&A Session:** A Q&A session allowed attendees to discuss challenges and opportunities in sustainability innovation with experts from Blue Planet.

### Outcome:

The workshop provided participants with practical knowledge and skills for developing innovative solutions to environmental challenges, fostering creativity and collaboration in sustainability efforts.

## **Event Report: Environmental Technology Seminar**

**Date:** November 30, 2022

**Location:** J S University, Conference Hall

### **Event Overview:**

An Environmental Technology Seminar was conducted to explore advancements in environmental technologies and sustainability practices through the collaboration between J S University and Blue Planet.

### **Highlights:**

- **Opening Remarks:** The seminar was opened by Dr. Amit Kumar Chaturvedi, Dean of Research at J S University, who welcomed Blue Planet representatives and outlined the seminar's goals.
- **Expert Presentations:** Speakers from Blue Planet delivered presentations on topics such as green technology, renewable energy solutions, and environmental impact assessments. They shared case studies and best practices.
- **Panel Discussion:** A panel discussion featured experts from both institutions who discussed the future of environmental technology, collaborative projects, and strategies for promoting sustainability.
- **Networking Opportunities:** The seminar included networking opportunities, allowing participants to connect with environmental technology professionals, researchers, and policymakers.

### **Outcome:**

The seminar facilitated discussions on environmental technology advancements and provided a platform for developing new initiatives to promote sustainability and eco-friendly practices.
