A Report on

Technical Fest and Exhibition Conducted by Rockstar Club

Date: 21st September to 23rd September 2021

Time: 1:30 PM to 5:30 PM

Venue: University Ground, (J.S. University, Shikohabad)

Topic: Workshop on Solar Power Plant

Rockstar Club of J.S. University (Faculty of Engineering) focuses on the design and development of renewable energy solutions, specifically solar power plants. Our club also conducts workshops on solar energy, where experts explain the technology to interested candidates and how solar power plants operate.

The club provides a platform for individuals interested in renewable energy to work in the field of solar technology and to implement innovative ideas and skills into their solar models, potentially leading to groundbreaking inventions.

Rockstar Club consistently updates the designs and models of solar power systems with new technologies that can benefit the nation and continues exploring fresh ideas in this field.

Through workshops, club members gain knowledge about the mechanics and applications of solar power plants. These sessions support students who aim to build a career in the field of renewable energy and power engineering, nurturing their passion for sustainability.
